

KIESER
BE STRONG, STAY STRONG

December 2020

OLD SCOTCH FOOTBALL CLUB & KIESER JOIN FORCES

We are most pleased to announce Kieser has officially been selected as our physiotherapy service provider for 2021. Kieser will manage the entire process for us - recruiting, hiring, payroll, training and rostering their staff. Kieser is expected to provide a quality service to all our players, coaches and the club.

We will be directing all of our players to Kieser and we recommend them to the broader Old Scotch Football Club (OSFC) community for all physiotherapy services. Kieser will be providing special rates for all of our players and for all members of the Old Scotch Football Club community.

As part of our agreement, Kieser will become a silver corporate partner of the club and enjoy the benefits associated with this level. We are keen to give Kieser the opportunity to promote their service and expand their networking possibilities within the broader OSFC network.

Kieser is a unique combination of physiotherapy and clinical strength training, providing hands on physio as well as specialised strengthening programs for injury rehab, improved health and better sporting performance.

To step inside Kieser, is to step inside a physiotherapy clinic which looks very different to most private practices! This is where sports-style rehabilitation is made available to the general public. Whether it be a niggling ache or pain or a more serious musculoskeletal injury - Kieser can help!

It is with great pleasure that we join together as partners for 2021 and hopefully many years to come as there are many mutual benefits for both organisations. If you have any questions you can contact either Peter Simpson (OSFC) on 0418 382 025 or Paul Percy (Kieser) on 0407 636 043.
